UAE cements its position as global destination for attracting FDI with total inflows of AED 167.6 billion in 2024

DUBAI / WAM

The UAE ranked 10th globally as a leading destination for inbound foreign direct investment (FDI) in 2024, achieving an unprecedented AED 167.6 billion (USD 45.6 billion in FDI inflows, according to the United Nations Conference on Trade and Development (UNCTAD) World Investment Report 2025.

The UAE Foreign Direct Invest-

ment Report 2025, issued by the Ministry of Investment, highlights the country's exceptional performance and unmatched success in attracting capital across strategic sectors, reinforcing its status as a premier global investment destination despite an unstable global landscape.

His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President, Prime Minister of the UAE, and Ruler of Dubai, declared that, under the visionary leadership of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, the UAE's tenth global ranking in FDI inflows for 2024 confirms its status as a land of boundless opportunities and the premier destination for innovative businesses and bold ideas.

His Highness Sheikh Mohammed bin Rashid Al Maktoum said: "In an international vote of confidence in the UAE's economy, the latest report by the United Nations Conference on Trade and Development (UNCTAD) revealed that the UAE attracted AED 167 billion (\$45 billion) in foreign direct investment over the past year, marking a 48% growth compared to the previous year." His Highness added: "The

UAE accounted for 37% of all foreign direct investment in-

flows into the region. Out of every \$100 invested in the region, \$37 comes to the UAE. The country also ranked second globally, after the United States, in the number of newly announced foreign direct investment projects. Our next goal is to attract AED 1.3 trillion in foreign direct investment over the next six years, God willing."

His Highness continued: "Our foundation is strong, our future

is promising, and our focus on our goals is crystal clear. Our message is simple: development is the key to stability, and the economy is the most important policy."

Space42 introduces Thuraya Mobile Broadband Hotspot

The secure terminal is designed to extend critical communications to users on the move in remote environments

ABU DHABI / WAM

Space42, the UAE-based AI-powered SpaceTech company, on Thursday announced the commercial availability of Thuraya Mobile Broadband Hotspot (Thuraya MBH).

This lightweight, secure, and affordable broadband terminal is designed to extend critical communications to users on the move in remote environments.

As demand for seamless, reliable connectivity accelerates, areas across land and sea remain outside the coverage of terrestrial networks. This coverage gap can endanger lives, delay emergency response, and disrupt mission-critical operations.

Thuraya MBH addresses these challenges with an easy-to-deploy solution that delivers reliable satellite connectivity for remote areas across Europe, the Middle East, Africa, and Central Asia.

Thuraya MBH is designed for operational simplicity and resilient performance in field conditions. The all-in-one terminal supports satellite connectivity for vehicles and vessels operating beyond terrestrial coverage, with a durable form factor and minimal setup requirements

Thuraya MBH is built to operate on the existing Thuraya satellite network and is fully compatible with the upcoming Thuraya-4 satellite, one of the largest and most advanced mobile

satellite solutions (MSS) ever produced. It is among the first of more than 15 new Thuraya-4enabled products that will serve both government and commercial markets.

Sulaiman Al Ali, Chief Commercial Officer, Space Services at Space42, said, "Thuraya MBH ensures critical communications remain operational in environments where terrestrial networks cannot reach.
