UAE President directs expansion of protected natural areas in emirate of Abu Dhabi

ABU DHABI / WAM

UAE President His Highness Sheikh Mohamed bin Zayed Al Nahyan has directed an increase in the area of nature reserves in Abu Dhabi to reach 20% of the emirate's total land area.

The initiative aligns with the IUCN World Conservation Congress 2025 programme and reinforces the UAE's commitment to global leadership in sustainability and environmental preservation.

The Environment Agency – Abu Dhabi will manage the newly designated reserves, which will cover 4,581 square kilometres. These will be added to the Zayed Protected Areas Network, which currently includes 13 terrestrial and six marine reserves.

The total number of protected areas will rise to 26, spanning 22,821 square kilometres.

The announcement coincides with the UAE's historic hosting of the IUCN World Conservation Congress for the first time in the region.

Under the patronage of Khaled bin Mohamed bin Zayed Environment Agency – Abu Dhabi and INPEX JODCO Foundation sign agreement to advance raptor conservation and cultural collaboration

ABU DHABI / AD MEDIA OFFICE

Under the patronage of His Highness Sheikh Khaled bin Mohamed bin Zayed Al Nahyan, Crown Prince of Abu Dhabi and Chairman of the Abu Dhabi Executive Council, the Environment Agency – Abu Dhabi (EAD) and the INPEX JODCO Foundation have signed a Memorandum of Understanding (MoU) to advance the conservation of raptor species and promote cultural collaboration between the United Arab Emirates and Japan.

The agreement builds upon a successful pilot project conducted in Japan between 2024 and 2025 and will expand efforts to protect falcons and other raptors across both nations through joint scientific research, habitat protection and educational outreach.

The MoU was signed during the IUCN World Conservation Congress 2025 by Her Excellency Dr Shaikha Salem Al Dhaheri, Secretary-General of EAD, and Hiroshi Fujii, Representative Director of the INPEX JODCO Foundation.

The signing marks a new phase in bilateral cooperation, bringing together Abu Dhabi's leadership in wildlife protection and Japan's advanced scientific expertise to address global biodiversity challenges while celebrating a deep respect for nature shared by both cultures.

As part of the MoU, the partners will expand raptor research and conservation programmes in Japan and the UAE. Activities will include the installation of artificial nests equipped with monitoring cameras in Japan to study breeding behaviour, population dynamics and habitat use. In the UAE, the collaboration will leverage the Abu Dhabi Falcon Hospital's advanced expertise in avian medicine and scientific research to support the rehabilitation of peregrine falcons and other raptor species. It will also include specialised training for Japanese zoo staff, fostering the exchange of knowledge and best practices in raptor care and conservation.

The project will generate data to inform species management guidelines, improve understanding of habitat conditions, population status and breeding patterns, and enhance public awareness through school programmes, exhibitions and community engagement.

Abu Dhabi unveils world-first innovations, strategic partnerships at GITEX Global

The 19 partnerships announced on day two represent the largest single-day collaboration in Abu Dhabi Government's history at GITEX Global 2025

ABU DHABI / WAM

On day two of GITEX Global 2025, the Abu Dhabi Government unveiled a new wave of world-first innovations and strategic partnerships, reinforcing its vision to become the world's first fully AI-native government by 2027.

More than 30 government and academic entities are participating in the Abu Dhabi Pavilion under the theme AI-Native by Design, Community-Driven by Purpose, showcasing how collaboration across government, industry and academia is enabling smarter, safer, and more human-centred digital experiences.

At the centre of the day's announcements was the launch of the most advanced version of TAMM, the emirate's super app which unifies over 1,100 public and private services. Powered by the Department of Government Enablement – Abu Dhabi (DGE), TAMM revealed an expanded portfolio of AI-driven features and intuitive Spaces that bring together services around the key moments of people's lives.

Dr Mohamed Al Askar, Director-General of TAMM, said, "This latest upgrade to TAMM leverages AI to

adapt experiences to users' profiles and preferences. It's our biggest and boldest version ever and is set to re-define government service delivery by creating a seamless and intelligent ecosystem that truly encapsulates what AI-native looks like."

Among the latest additions is AutoGov, the world's first AI public servant — a self-learning system that autonomously manages recurring government tasks such as license renewals, bill payments, and healthcare appointments, freeing residents to focus on what matters most.

Building on this foundation, TAMM 4.0 introduces AI Vision and Smart Guide, two new capabilities that provide step-by-step spoken and visual support, interpret intent, and validate documents visually to simplify even the most complex services. Meanwhile, TAMM Hologram brings mobile help centres to life — accessible pods where customers can connect in Arabic or English with live agents appearing as holograms for real-time, step-by-step guidance.

More than 30 government and academic entities are participating in the Abu Dhabi Pavilion under the theme AI-Native by Design, Community-Driven by Purpose, showcasing how collaboration across government, industry and academia is enabling smarter, safer, and more human-centred digital experiences

TAMM by You, another new feature, turns the platform into a truly community-driven experience by allowing users to share and vote on ideas that shape future services — a first for the region and a fitting innovation during the UAE's Year of Community.

Two new TAMM Spaces — Mobility and Family — join the Sahatna Space. Alongside the already live Business and Property interfaces, it takes the total number of TAMM Spaces to five.
