ABU DHABI / WAM

The Ministry of Economy and Tourism (MOET) reviewed Cabinet Resolution No. 136 of 2026 concerning the exemption of student inventors and People of Determination in the UAE from certain industrial property service fees.

The move comes as part of the Ministry's efforts to enhance the country's innovation and intellectual property (IP) ecosystem, create a supportive and stimulating environment for talent and innovators, facilitate access to IP protection services, safeguard intellectual output, and facilitate the registration and protection of industrial property rights.

Dr. Abdulrahman Hassan Al Muaini, Assistant Undersecretary for the Intellectual Property Sector at the Ministry, emphasised that the UAE has been keen to develop a comprehensive legislative and regulatory environment for the protection of industrial property rights, including patents and industrial designs, in accordance with international best practices and standards. This is particularly evident in the issuance of the Federal Law on the Regulation and Protection of Industrial Property Rights and the strengthening of international partnerships in this field, including the UAE's accession to the Locarno Agreement Establishing an International Classification for Industrial Designs.
